Welcome

This guide walks you through every screen in your store's admin panel — from the moment you log in for the first time to the day-to-day work of taking orders, managing stock, and talking to customers.

It is written for two audiences at once. If you are the store owner or administrator, the early chapters (Profile, Website Maintenance, Application Setup, General Masters) will get your store live. If you are a day-to-day staff member — sales, dispatch, or support — the later chapters (Customers, Website Orders, Inventory, Reports) cover the screens you will use most.

Every topic follows the same simple pattern: a short description of what the screen does, a screenshot of the actual panel, and a numbered list of the exact fields to fill in or buttons to click. Wherever the panel shows extra rules or limits, you'll find them called out in a Note box.

You do not need to read this guide cover to cover. Use the Quick Start checklist to go live fast, then come back to the full reference (organized exactly like the left-hand navigation menu in your admin panel) whenever you need step-by-step help with a specific screen.

Screens shown in this guide are from a live admin panel; your own field labels and menu order will match exactly, though sample data and colors may differ slightly depending on your plan.

Quick Start — Launch in Minutes

You can have a working, browsable store in well under an hour if you follow this order. Each step links to the full chapter later in this guide where every field is explained in detail.

#	Do this	Where	Roughly
1	Update your Company Profile Add your legal company name, address, GST/PAN details, and support contact numbers. This information feeds your invoices, footer, and customer-facing contact details.	<i>MyProfile > Company Profile</i>	5 min
2	Set your password & confirm your package Change the default password on your account and confirm the plan/package limits you're working within.	<i>My Profile > Change Password / My Package</i>	2 min
3	Brand your storefront Upload your website logo, admin logo, favicon, and home page banner so the storefront looks like your brand from day one.	<i>Website Maintenance > Logo & My Page Layout</i>	10 min
4	Turn on a payment gateway Connect PayU, Atom, or PhonePe (or all three) so customers can actually pay you.	<i>Website Maintenance > Payment Gateway</i>	10 min
5	Build your product foundations Define the metals, karatage, categories, sizes, and stone attributes your catalog will be built from. Do this before adding a single product.	<i>Application Setup > Metal, Product & Stone</i>	15 min
6	Set your pricing rules Enter today's metal and stone rates and your making/wastage charge formulas — the panel uses these to price every product automatically.		
7	Add your first products Add products with images, pricing, and stock so your storefront has something to sell.	<i>General Masters > Metal Rate, Making Charges, Wastage Charges</i>	10 min
8	Add your legal pages Fill in About Us, Privacy Policy, Terms & Conditions, Disclaimer, and Cancellation/Return Policy — required for most payment gateways to approve your account.	<i>Website Products > Product Catalog</i>	15+ min
9	Go live and watch your Reports Once orders start coming in, use the Reports section to track sales, popular products, and customer activity.	<i>Website Maintenance > Privacy & Terms</i>	10 min
		<i>Reports</i>	ongoing

Complete Admin Reference

The rest of this guide follows your admin panel's own left-hand navigation menu, top to bottom, one chapter per menu group. Jump to any chapter using the Table of Contents, or read straight through.

1. My Profile

YourProfile is where your company's own identity lives — its legal details, your subscription package, and your login security. Start here on day one, and return whenever your company details or password need an update.

1.1 Company Profile

Update your company details here

The screenshot shows the 'Company Profile Form' with the following fields:

Company Name	Address1	Address2	Address3
UPDATE YOUR COMPANY NAME	UPDATE YOUR ADDRESS	Address2	Address3
State	City	Pincode	Website Primary Contact no
UPDATE YOUR STATE	UPDATE YOUR CITY	123456	0987654321
Website Secondary Contact no	Website Primary Email	Website Secondary Email	Website Whatsapp Number
0987654321	UPDATE YOUR EMAIL	Website Secondary Email	0987654321
Notification Primary Contact no	Notification Secondary Contact no	Notification Primary Email	Notification Secondary Email
Notification Primary Contact no	Notification Secondary Contact no	Notification Primary Email	Notification Secondary Email
Contact Person Name	Contact Person Phone	Contact Person Email	GST No
Contact Person Name	0987654321	UPDATE YOUR EMAIL	UPDATE YOUR GST
PAN No	Aadhaar No	Company Short Code	Sales Order Start Code
PAN No	Aadhaar No	KGcp	1001

Screenshot—Company Profile

How to configure this screen

1. Enter your Company Name here.
2. Enter your first line of address here.
3. Enter your second line of address here.
4. Enter your third line of address here.
5. Enter your State here.
6. Enter your City here.
7. Enter your Pincode here.
8. Enter your Website Primary Contact No here.
9. Enter your Website Secondary Contact No here.
10. Enter your Website Primary Email here.
11. Enter your Website Secondary Email here.
12. Enter your Website Whatsapp Number here.
13. Enter your Notification Primary Contact No here.
14. Enter your Notification Secondary Contact No here.
15. Enter your Notification Primary Email here.
16. Enter your Notification Secondary Email here.
17. Enter your Contact Person Name here.

18. Enter your Contact Person Phone here.
19. Enter your Contact Person Email here.
20. Enter your GST No here.
21. Enter your PAN No here.
22. Enter your Aadhaar No here.
23. Enter your Company Short Code here.
24. Enter your Sales Order Start Code here.
25. Finally click here to submit the company profile form.

Here you can control (map) access of your employees as per their job role

The screenshot shows the 'User Roles Mapping' form in the E-Commerce Admin Panel. The left sidebar contains a navigation menu with categories like 'My Profile', 'Website Maintenance', 'SEO', 'Application Setup', 'User Roles Settings', 'General Masters', 'Customers', 'Vendors', 'Website Products', 'Inventory', 'Website Orders', 'Loose Solitaire Diamond', 'Lab Grown Diamond', and 'Reports'. The 'User Roles Mapping' option is selected under 'User Roles Settings'. The main content area is titled 'User Roles Mapping Form' and includes a 'User Role' dropdown menu (currently showing 'Please Select') and a 'Menus Selection' table. The table lists various menu items with a '+' icon for selection. At the top right of the form, there are 'Submit' and 'Reset' buttons. A watermark 'Activate Windows' is visible in the bottom right corner of the form area.

Menu Selection
+ Menu -> My Profile
+ Menu -> Website Maintenance
+ Menu -> Finance and Accounts
+ Menu -> SEO
+ Menu -> Application Setup
+ Menu -> General Masters
+ Menu -> Website Products
+ Menu -> Inventory
+ Menu -> Discount Master

8.9 Home Popup

Here you can edit, activate or block the home popup

The screenshot displays the 'Home Popup' configuration page. On the left is a sidebar menu with categories like 'My Profile', 'Website Maintenance', 'SEO', 'Application Setup', 'General Masters', 'Customers', 'Vendors', 'Website Products' (expanded), 'Inventory', 'Website Orders', 'Loose Solitaire Diamond', and 'Lab Grown Diamond'. The 'Website Products' section is active, showing a list of items including 'Product Catalog (596)', 'Product Price List', '3D Designs (8928)', 'My Cart (0)', '3D Transfer History (299)', 'Brand', 'Reviews', 'Book An Appointment', and 'Home Popup' (selected). The main content area is titled 'Home Popup' and features a table with the following data:

Sl. No.	☐	Image	Link	Added On	Updated On	Status
1	☐		http://www.3djewelsindia.com/	17-11-2020	12-03-2023	Active

Below the table, it says 'Showing 1 to 1 of 1 entries'. To the right of the table, there is a search bar and a status toggle with 'Activate' (green) and 'Block' (red) buttons. At the bottom right, there is a pagination control with 'Previous', '1', and 'Next' buttons. A watermark 'Activate Windows' is visible in the bottom right corner.

Screenshot — Home Popup

How to configure this screen

1. Click on the image to update the home popup image.
2. Copy the link of website and paste here.
3. Upload the home popup image here.
4. Finally click here to submit the home popup form.

9. Inventory

Inventory tracks what physical stock you actually hold, and the Purchases screens record what you've bought in from vendors— so your live stock count always reflects reality.

9.1 Product Stock

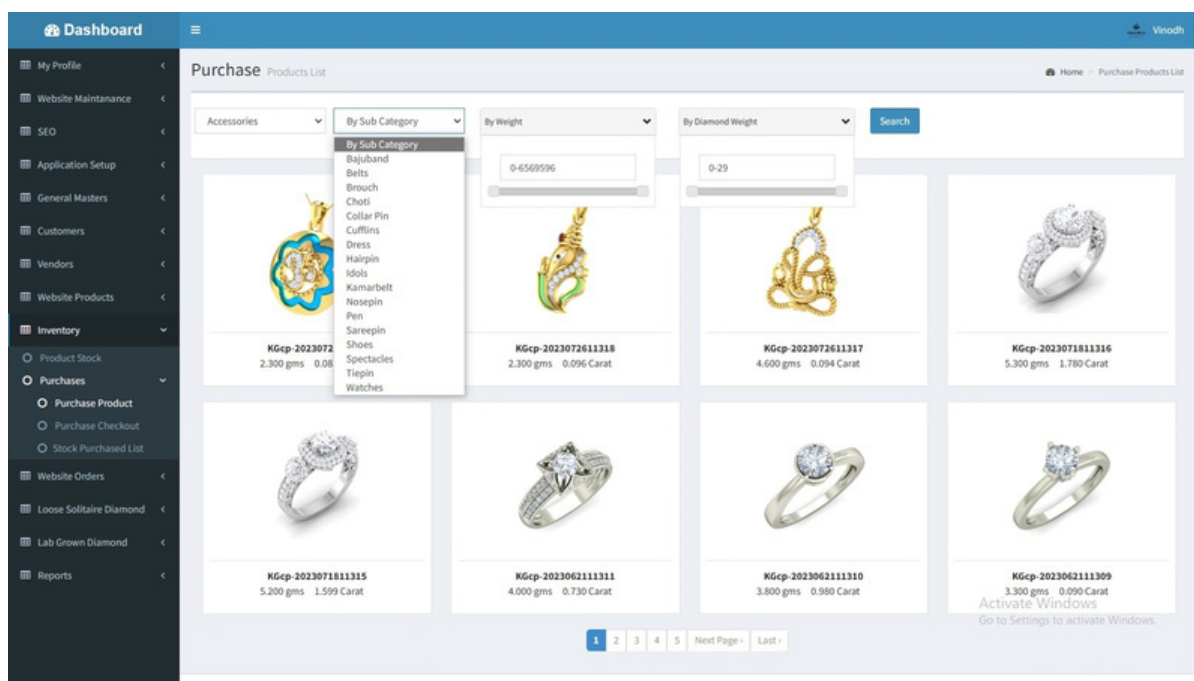

Here you can add your product stock list through excel sheet Here you can see the Item Codes of Product Stock Here you can see the Stone Size Details

Here you can see your customer's general enquiries list.

The screenshot displays the 'General Enquiries' section of the admin panel. On the left is a sidebar with navigation options: My Profile, Website Maintenance, SEO, Application Setup, General Masters, Customers, Vendors, Website Products, Inventory, Website Orders (expanded), Loose Solitaire Diamond, Lab Grown Diamond, and Reports. The 'Website Orders' section includes sub-items: Orders, Issue To Production, Ready for Dispatch, Delivered List, Enquiries, and General Enquiries (selected). The main content area is titled 'General Enquiries' and includes a search bar and a dropdown to show 20 entries. Below this is a table with two rows of enquiry data.

SNo	Enquiry Id	Client Dtls	Enquiry Date	Message
